- **Earl**
- **LASE**

Flight Date:

Monday, August 30, 2010

Sortie Number:

13

LASE operated well for this last flight through Hurricane Earl. LASE collected some data where clouds were fewer in the SSW portion of the track where clouds were fewer. There was little dust observed during the flight. LASE collected water vapor and aerosol data during portions of the flight track over the eye of Earl.
